

***Fibre Diffraction Review*: Instructions to Authors**

Submitted original papers, technical reports, Reviews, comments/letters and meeting reports for inclusion in *Fibre Diffraction Review* are welcome.

Technical Reports

These include presentations of the latest developments in CCP13 and other fibre diffraction/ non-crystalline diffraction software and their scientific justification and also, for example, reports on developments at synchrotron beamlines used for fibre diffraction and non-crystalline diffraction studies.

Reviews

These include summary presentations of the 'state of the art' in the structural analysis of particular fibrous or non-crystalline systems.

Original Papers

These present previously unpublished results from fibre diffraction or small-angle scattering experiments using either X-ray, neutron or electron diffraction.

Expanded Poster-Prize Abstracts

At each of the CCP13/ NCD Annual Workshops cash prizes are presented to the best poster presentations. The judges are always senior scientists in the field and are often from overseas. Winners of the Poster Prizes are invited to expand their abstracts into short papers for inclusion in *Fibre Diffraction Review*.

Refereeing

All papers, of whatever category above, will be refereed by at least two people (from the CCP13 Committee or their nominated referees) and may be either (a) accepted as they stand, (b) returned for rapid revision, or (c) rejected. As well as their scientific content, papers will be judged on their clarity of presentation and the quality of their figures.

Meeting Reports

Fibre Diffraction Review includes reports on relevant meetings and conferences which include an element of fibre diffraction or small-angle scattering and which will be of general interest to our readers. Such reports will often be solicited by the Editor from known meeting participants. Other potential contributors to this part of the Journal should contact the Editor prior to writing their report.

Comments/Letters

Feedback from readers about CCP13, about the NCD community and about the Journal itself are welcome. These could be in the form of comments or letters to the

Editor. Suitable contributions will be published in the Journal.

Advertisements

Industrial/commercial adverts of interest to our readers are welcome. Potential advertisers should contact the Editor for details of current rates.

Submission

Contributions should be sent to the Editor before the annual deadline (December 31st) for each issue. Contributions submitted after this date may be held over for the following issue.

Colour illustrations are welcome and are included without charge. Contributions should be submitted in electronic format to the Editor (j.squire@imperial.ac.uk).

Text should be in Word 6 format and illustrations should be submitted as separate files at high resolution in TIFF or JPG format.

References should be in the format specified for *J. Molecular Biology*, and should be complete with title. Please find more details from our website.

Reprints

It is not economic for us to produce reprints of articles. However, all papers are available on the CCP13 website in downloadable pdf format.

Editor's Address

Professor John M. Squire,
Head, Biological Structure and Function Section,
Imperial College of Science, Technology & Medicine,
London SW7 2AZ, UK.

Editor '*Fibre Diffraction Review*' (ISSN 1463-8401).
